

Gamze Bolat, Backend Developer

Hatay, Türkiye, +905519539660, gamzeblt19032@gmail.com

LINKS	Linkedln , GitHub			
PROFILE	Dedicated Computer Engineer with a focus on backend architecture and enterprise software development. Proficient in Java and Spring Boot, with practical experience in SAP Hybris and a deep understanding of design patterns. I have a proven track record of applying professional development standards to build scalable systems. Committed to delivering efficient code and contributing to high-impact projects in a professional engineering environment.			
EMPLOYMENT HISTORY				
Jul 2025 — Aug 2025	Backend Developer Intern, HATSU			Hatay/Türkiye
	I contributed to software maintenance and data management processes, gaining hands-on experience in database and system operations.			
Feb 2026 — May 2026	Backend Developer Intern, Enoca			İstanbul/Türkiye
	I applied design patterns in Hybris to simplify code and improve performance, gaining hands-on experience in enterprise development practices.
