Management Information Systems graduate with hands-on full-stack web development experience, covering everything from UI development to production deployment on platforms such as DigitalOcean and Vercel. Proficient in DevOps practices and CI/CD pipelines, with a proven ability to manage the full project lifecycle — from initial development through scalable deployment and long-term maintenance — with a consistent focus on performance and reliability.

Education

- **MANAGEMENT INFORMATION SYSTEMS | AUGUST 2022 – JUNE 2026 | AKDENİZ UNIVERSITY**
- **Major:** Management Information Systems
- **Focus Areas:** Software Development Life Cycle (SDLC), Front End Developer, DevOps Engineering.

Skills & Experience

FRONT-END DEVELOPMENT & UI/UX

Proficient in building polished, responsive, and accessible user interfaces with a mobile-first approach.

Experienced in developing modular, reusable UI components with a focus on scalability and clean code.

DEPLOYMENT & INFRASTRUCTURE

Skilled in configuring and maintaining Linux (Ubuntu/Debian) servers, including SSH security and firewall management.

Deployed and managed full-stack applications on VPS environments using Nginx as a reverse proxy.

SKILLS

DevOps Tools: Docker / GitHub Actions (CI/CD), Git, Linux, Network Technologies.

Web Development: React, Tailwind, Sass/Scss(Front-end), Django, SQL(Back-end).

Cloud: AWS (Infrastructure management).

EXPERIENCE

DEVELOPER | FAVILLA COMPANY, E-COMMERCE| 2026 JANUARY - CONTINUES

Managed the end-to-end lifecycle of **Favilla Outlet**, developing a modular **React/Django** codebase and automating its deployment to a **Linux VPS** using **Nginx** and **CI/CD pipelines** for high availability

INTERN FRONT END DEVELOPER | TEKNODEV | 2026 FEBRUARY – 2026 MAY

Developed modular **React components** for specific project features using **Trello** for task tracking. Managed a structured **Git workflow**, resolving branch conflicts and overseeing the transition of features into the **Testing/QA phase** to ensure seamless integration and code integrity.
