I have been working as a **front-end** and **backend developer** in teams focusing on corporate and **e-commerce projects** for 2 years. I have experience with **React.js**, **TypeScript**, **Next.js**, **Redux**, **JavaScript**, **Html**, **Css**, **Styled Components** and **.Net Core Api**, **Unit Test**. Currently, I took the **Java Spring Boot** course from Patika. Meanwhile, I improved my skills in **Docker**, **RabbitMQ**, and **Elasticsearch**. Throughout this journey, I have closely followed the dynamics of web development and seized opportunities to learn and apply cutting-edge industry technologies. I strive to write **clean code**.
