

# MEHMET ALİ TAŞ

AI Solutions Engineer | Full-Stack Developer | AI Automation & Integrations

Trabzon, Türkiye | +90 543 697 76 68 | mehmetalitas@hotmail.com.tr

[LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

Computer Engineer with ~10 years of software development experience, specialized in AI-powered solutions, scalable web applications, and e-commerce platforms. Hands-on expertise with OpenAI, Gemini APIs, AI Agents, Model Context Protocol (MCP), and AI-assisted development workflows across the full stack (React, Next.js, Node.js). Combines strong technical SEO knowledge with modern engineering practices to deliver measurable business impact. Working proficiency in English (intermediate).

## PROFESSIONAL EXPERIENCE

### Software Developer | Garsoft Yazılım

Nov 2025 – Present

- Develop and maintain OdevJet.com and client web projects, building modern web applications and AI-powered content/automation workflows.
- Design and implement technical SEO/GEO strategies, increasing organic search traffic by up to 40% for client sites through schema markup, site structure, and content optimization.
- Support e-commerce clients with technical improvements (page speed, UX, checkout flow) contributing to measurable increases in online conversion rates.

### Freelance Full-Stack Developer | Self-employed

May 2025 – Nov 2025

- Delivered freelance web and automation projects for clients between full-time roles, maintaining continuous hands-on development work.
- Focused on AI-assisted development workflows and rapid prototyping using Claude Code, Cursor, and Codex.

### Full-Stack Developer | Uptexx Bilgi Teknolojileri

Jan 2024 – May 2025

- Developed production-ready web applications using React, Next.js, and Node.js, supporting thousands of active users in production.
- Built and maintained REST APIs consumed by frontend and third-party integrations, improving data reliability across services.
- Implemented Docker-based deployments and CI/CD pipelines with GitHub Actions, cutting manual deployment time by roughly 60%.

### Freelance Full-Stack Developer | Self-employed

2023 – Present

- Delivered 5+ web, desktop, and e-commerce projects end-to-end — from requirements and architecture to deployment and post-launch support — for real clients.

## SELECTED PROJECTS

- Koza Tasarım Atölyesi — E-commerce platform (WordPress/WooCommerce) with technical SEO optimization; improved organic rankings and page load speed.
- OdevJet — Corporate website and content management system for an educational platform.
- Eloz Nakliyat — Corporate website with technical SEO implementation.
- Yavuz Rent A Car — Responsive business website.
- Özel Trabzon Kardelen — Healthcare sector website.
- Mükellef Takip — Electron desktop app for accountants to manage client records and workflows.
- Stock & Customer Tracking — Desktop app for inventory and customer data management.
