SUMMARY

I live in Ankara and hold a degree in Computer Engineering from Gazi University. As a Full Stack Developer candidate, I have a solid grasp of modern web technologies and a strong interest in both frontend and backend development particularly with Java, Spring Boot, and React. Enjoy solving algorithmic challenges on platforms like LeetCode and continuously work to enhance my skills through learning and hands-on experience. I value clean code, effective teamwork, and staying up to date with the latest trends in software development.

TECHNICAL SKILLS

Java, JavaScript, SQL, Spring Boot, Spring MVC, Spring Data JPA, RESTful APIs, Microservices, React.js, HTML5, CSS3, Responsive Design, PostgreSQL, MySQL, Liquibase, Git, GitHub, IntelliJ IDEA, Postman, Redis, Docker, Kubernetes, CI/CD, Object-Oriented Programming, Design Patterns, Agile/Scrum, Clean Code

PROFESSIONAL EXPERIENCE

Software Engineer **June 2025 - Present**

Tiga Bilgi Teknolojileri – Ankara, Türkiye

- Leading contributions to the ongoing development of the E-Appointment & E-Referral systems for Qatar's national healthcare project.
- Designing and implementing RESTful APIs and integrating services in a microservices architecture.
- Building, testing, and deploying production-ready applications using Java (Spring Boot) and React.js.
- Actively participating in Agile/Scrum ceremonies, including sprint planning, reviews, and retrospectives.
- Ensuring scalable, efficient, and high-quality code with a focus on clean architecture and design patterns.
- Leveraging Git, Docker, Postman, and Jira to streamline workflows and improve team collaboration.

Candidate Full Stack Engineer **July 2024 – June 2025**

Tiga Bilgi Teknolojileri – Ankara, Türkiye

- Contributing to the development of a national healthcare project for Qatar, focused on E-Appointment & E-Referral systems.
- Building and maintaining full-stack web applications using Java (Spring Boot) and React.js.
- Designing and integrating RESTful APIs and working within a microservices-based architecture.
- Participating in Agile/Scrum processes including sprint planning, daily stand-ups, and code reviews.
- Writing clean, efficient, and maintainable code aligned with clean code principles and software design patterns.
- Utilizing tools such as Git, Docker, Postman, and Jira to streamline development workflows.

EDUCATION

Gazi University – Ankara, Türkiye **Sep 2021 – Jun 2025**

Bachelor's Degree in Computer Engineering

- Focused on software engineering, data structures, algorithms, and web technologies.
- Completed various academic projects using Java and web frameworks.

ADDITIONAL INFORMATION

- Languages:** Native Turkish, English
- Interests:** Solving algorithmic challenges (LeetCode), following tech trends, playing football, chess
