ABOUT

Hello, I have been working professionally in software development since 2022. I have been actively working as a Full-Stack Developer for 2.5 years.

EXPERIENCE AND EXPERTISE

İNNOVA BİLİŞİM 03.07.2023-Ongoing
Assistant Software Development Specialist

- I took part in Wi-Fi portal developments, new portal and infrastructure integration checks, as well as portal maintenance and improvement tasks.I was involved in control, integration, maintenance, and development processes related to fiber infrastructure and home internet services.I participated in projects involving infrastructure monitoring of Türk Telekom Inc.'s inventory systems and partner management systems.

İNNOVA BİLİŞİM 2023,February - 2023,June
Long Term Intern

- I took part in Wi-Fi infrastructure and portal development projects for Türk Telekom Inc. and municipalities in all 81 provinces.
- I worked on Wi-Fi internet portal checks, new portal implementations, and improvements.
- I served as a software developer responsible for portal data verification and reporting.

İNNOVA BİLİŞİM 2022,June-2022,September
Intern

- I worked as a software developer and reporter in system integration areas such as telecommunications, communication, mobile communication, and fixed-line services (e.g., 112, 155).
