PROFILE

I am a computer engineering student enthusiastic about software development. With strong analytical thinking and problem-solving skills, I strive to continuously improve myself in the field of programming. I believe that teamwork is essential. Learning something and implementing makes me thrilled.

PROFESSIONAL EXPERIENCE

Computer Engineering Intern | Rocksoft Ankara, Türkiye | Jun 2025 – Jul 2025

- I actively participated in a mobile application project, supporting user identity verification, Google Sign-in, and Firebase integration for simultaneous data management processes.
- This contributed to the stabilization of the application by analyzing and resolving error logs encountered in Android emulators.
