► EDUCATION

Computer Engineering
(Bachelor's Degree) –
Expected Graduation 2027
Lefke Avrupa Üniversitesi

► LANGUAGES

- English (C1)
- Spanish (B1)

► SKILLS

- Python (Intermediate)
- C (Intermediate)

Cybersecurity & Networking

- Basic Penetration Testing (Pentesting)
- Network Traffic Analysis (Wireshark)
- Log Analysis (Basic)

Tools :

- Wireshark
- Nmap
- Metasploit
- Burp Suite
- Kali Linux

PROFESSIONAL SUMMARY

I am a third-year Computer Engineering student at European University of Lefke with a strong interest in cybersecurity, especially in Blue Team practices.

I have been developing my skills in network traffic analysis, log analysis, and basic penetration testing through hands-on practice. I am comfortable using Wireshark for analyzing network traffic and have intermediate knowledge of Python and C.

Recently, I have been focusing on cloud security and aim to build a strong foundation in this area. I am eager to learn, detail-oriented, and motivated to improve myself continuously.
