EDUCATION

Turkish Aeronautical Association University

Computer Engineering
2022-2027

ABOUT ME

I am currently a third-year Computer Engineering student at the Turkish Aeronautical Association University. I am passionate about continuously developing my skills, with particular interests in artificial intelligence, programming, and financial technologies.

SKILLS

- Python
- Graphic Design
- Object-Oriented Programming
- Java

EXPERIENCE

INTERN

Denizbank Deniz Aşırı Online Internship Program (2023-2024)

- By participating in an overseas online internship program, I learned about financial technologies, artificial intelligence and software development methods.

COORDINATOR

YAZVEB Community-YAZVEB Coordinator (2024-Present)

- I am working as a vice president at the Artificial Intelligence and Data Science Community of the University of Turkish Aeronautical Association.
- I handle the technical side of our community.

LANGUAGES

- English Intermediate

INTERNSHIP

Testinium-Backend Developer Intern

- Developed a Spring Boot-based backend project. Designed services that consume GitHub APIs to fetch repository, commit, and contributor data. Worked with layered architecture (Controller, Service, Repository, DTO, Entity) and implemented JWT-based authentication.

PROJECTS

Age Prediction Artificial Intelligence Development

- Contributed to a project where AI analyzes user facial features to predict age.
- Actively participated in data analysis, model training, and testing phases.

Developing an E-commerce Site Simulation

- Designed and developed a small-scale e-commerce website simulation for educational purposes.

Guess The Number Game

- Developed a number guessing game where users try to guess a randomly generated number within a specified range.

CERTIFICATIONS

- DenizBank Denizasiri Online Internship Program Certificate
- Introduction to Algorithm Programming and Data Structures(BTK Akademi)
- Introduction to Programming with JAVA(BTK Akademi)
- Python Programming from Scratch to Advanced(BTK Akademi)
