## Education

**Ankara Medipol University**  
Computer Engineering  
2022–Present

## Expertise

- Openness to Learning
- Leadership
- Analytical Thinking
- Problem Solving

## Skills

- Java
- C
- Verilog
- Python

## Language

English : B2

## About Me

I am a 3rd-year Computer Engineering student with approximately 1.5 years of Java programming experience. I possess beginner-level knowledge of Verilog and am currently studying C programming in a Linux environment. I am a team-oriented, eager-to-learn individual who values continuous improvement. My goal is to gain hands-on experience in software development processes, adapt to a professional work environment, and further develop my technical skills through internships.

## Work Experience

### Intern Engineer – AKGÜN Software

Jul 2025 – Aug 2025 | Ankara, Turkey

- Developed a full-stack IoT system.

## Projects

### Smart IoT System – Internship Project

Developed a full-stack IoT system using Spring Boot, React, and PostgreSQL with MQTT-based communication for ESP32 devices (LED, Servo, RFID, DHT11, Buzzer).

## Certificates

**Java Development Course – Udemy (2024)**
