EXPERIENCE AND PROJECTS

- completed her Software Development Internship at VBT YAZILIM company.
- Worked as a Guest Relations Staff member at Sahit'in Paradise Holiday Village.
- Developed various web projects during academic courses, including interface design, coding, and database management.
- Contributed to the TÜBİTAK project titled "Interdisciplinary Examination of the Concept of Artificial Intelligence: A Metaphor Analysis."
- Gained experience in team collaboration and innovative problem-solving by developing different projects within the scope of the TEKNOFEST competition (TravelIdeathon).
- Currently part of the KTÜ-Space team in the TEKNOFEST Underwater Robotics competition, actively working on image processing with OpenCV and model training using YOLOv5 and YOLOv7.
- Continuously enhancing advanced technical knowledge and skills as a Data Science scholar at the Artificial Intelligence and Technology Academy.
- Gained experience by developing small-scale projects in the fields of Machine Learning, Deep Learning, and Image Processing.

CERTIFICATES

Google Advanced Data Analytics (2025)

Foundations of Data Science

Google Advanced Data Analytics (2025)

Get Started with Python

Google Advanced Data Analytics (2025)

Go Beyond the Numbers Translate Data into Insights

Google Advanced Data Analytics (2025)

Foundations of Project Management

ACADEMIC HISTORY

Karadeniz Technical University | 2022-2026

Bachelor of Management Information Systems

- GPA 3.04

Anadolu University | 2023-2027

Bachelor of Visual Communication Design
