EXPERIENCE

INTERNSHIP | Solus Information Technologies | Ankara, Türkiye

July 2025 – August 2025

System Administration

- Deploying operating systems on virtual machines (Red Hat Enterprise Linux, UTM virtual machine)
- Handling system and service configurations (SSH, Apache, DNS, NFS, etc.)
- Handling network connectivity and repository issues
- Disk space errors and configuration conflicts

PROJECTS

ECG PROJECT | Başkent University BENG-CSE Project (C++)

- In this project where BENG and CSE students worked together, as a CSE student, I developed a program and prepared a report that classifies and diagnoses heart rhythms according to the given instructions such as using classes and appropriate data structures, with the data we received from BENG students.
- I played an active role in project management.

EDUCATION

Computer Engineering (100% English) | GPA 3.14/4.00 | Başkent University

2023 – In Progress

EXTRACURRICULAR ACTIVITIES

SCHOOL CLUB | Başkent Computer Society – Cybersecurity Committee | Başkent University | Board Member

SKILLS

- C/C++
- Red Hat Enterprise Linux
- Shell
- Python/Django
- HTML/CSS
- Java
- R
- Assembly
