

Karahan Ballı

Artificial Intelligence & Data Engineering Student

Phone: (+90) 5362954444

Email: karahanballi@outlook.com

Github: <https://github.com/karahanballi>

Date of Birth: 05/05/2005

Nationality: Turkish

Profile: As a third-year Artificial Intelligence and Data Engineering student, I am actively advancing my expertise in machine learning, data analysis, and model development. I utilize Python as my primary programming language, along with SQL and core data science libraries, to carry out data preprocessing, model training, and performance optimization.

Languages: Turkish, English

Skills:

- Technical Skills
- Programming Languages: Python, Java, C, C#
- Machine Learning & AI: Machine Learning, Model Development, Data Analysis, Feature Engineering
- Data & Databases: SQL, Data Preprocessing, Data Manipulation
- Libraries & Frameworks: NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch
- Data Visualization: Matplotlib, Seaborn
- Tools & Technologies: Git, GitHub, Jupyter Notebook
- Software Development: Object-Oriented Programming (OOP)
- Web Technologies: HTML, CSS, JavaScript

Education: **Ankara University | Ankara, TR | 2023-Present**
BSc. Artificial Intelligence & Data Engineering (2.84 / 4.00 GPA)

- Machine Learning, Data Analysis, Database Systems
